CERTIFICATIONS

- Internship Certificate (React Native App Design)from Sevak Digital Technologies.
- Gained expertise in full-stack development through MERN Stack Course From Front Line Media.

TECHNICAL SKILLS

- Programming Languages: Core Java, JavaScript, HTML5,CSS3
- Database: SQL, MYSQL, MongoDB
- Backend: Node.js
- Frameworks: ReactJs, React Native
- Operating systems: Linux/Unix, Windows
- Tools: Git, GitHub

PROJECTS

- **S2SERVICE (Mobile App)**  
I developed S2Service, it's similar to Uerban Company Service App. A mobile app designed to provide seamless access to home services and personal services. The app allows users to browse various service categories, view details, book appointments, and manage their service requests effortlessly. With features like real-time booking, personalized recommendations, and secure payments, S2Service ensures convenience and reliability for its users.

- **School Management System (Mobile App)**

I am developing front end as well as the backend part of the Mobile Application Called SMS. The app includes features like attendance tracking, fee management, timetable scheduling, and performance monitoring, providing an efficient and user-friendly solution for schools.

- **Work Summary**

I am developing front end as well as backend part of the above two projects. In these projects I am assigned to develop the screens. We used HTML5, CSS3, JAVASCRIPT and React Native is a front end frame work and Node.js is a backend and MySQL is a Database.
